PERSONAL SUMMARY / CAREER OBJECTIVE

A talented graduate developer with a strong academic background. Ability to think through a problem coupled with the confidence to make ideas heard. A proven ability to maintain and enhance company software with the aim of improving operational functionality in line with business requirement. My previous studies in computer science at college and the unique skills I developed through my work experience in companies and projects with problem solving and good analytical skills make me an excellent fit for this position and allow me to work alongside an expert team of developers.
